GUIDELINES

Thank you for your request for funding from the Joshua Green Foundation. The principle focus of the Foundation is major capital campaigns of non-profit, 501 (c)(3) tax-exempt organizations headquartered and operating in the Seattle/King county area. These requests should not occur more than once every five years and no more than one percent (.01) of the private portion of the capital campaign will be funded. We do not fund national or international organizations. Minor capital needs such as computer and telephone equipment will not be supported.

The Foundation's funding priority is private secondary and higher education. The board monitors the shifting major needs of the greater Seattle community. It has supported various arts organizations' moves to new venues downtown, the redevelopment of the downtown waterfront, and food and low-income housing for those in our community experiencing food and housing instability. The Foundation contributes annually to the United Way and to Northwest Harvest. Other operating requests are considered only in the event of unpredictable and one-time cash flow declines.

It does not fund individual requests, endowments, scholarships, conferences, seminars, pilots, start up or seed money projects, nor does it underwrite special event programs, concerts, videos, books or personnel positions. Notwithstanding those criteria, the Foundation encourages and supports major efforts in the not-for-profit sector anywhere in the United States by Green family members.

If your request falls within the above guidelines, please complete the attached application and submit either online, email (jgadmin@joshuagreencorp.com), or mail.

If your request does not fall within the above guidelines, our apologies for being unable to support your worthwhile project and we wish you success in your fundraising efforts.

Thank you.
